**STORAGE PROS SELF STORAGE OPENS STATE-OF-THE-ART FACILITY  
IN SOUTHFIELD, MICHIGAN ACROSS FROM TEL-TWELVE MALL**

December 15, 2008 – (Farmington Hills, MI) – Storage Pros Self Storage, Michigan’s leading storage company, announced the opening today of a 70,000 square-foot self storage facility in Southfield, Michigan. The new facility is located at 28223 Telegraph Rd., South of 12 Mile Road, across from the Tel-Twelve “power center” mall.

“We are extremely proud to open this brand new Storage Pros facility to fill the ‘storage gap’ that exists in this market for the many neighboring offices, retail stores and residences in the area,” said Ian Burnstein, COO and co-founder of Storage Pros. “We are confident that our customers will find Storage Pros Southfield to be a convenient, clean and secure place to store their personal items as well as documents and other business items.”

Facility owner Storage Pros Southfield LLC is an affiliate of Farmington Hills-based Storage Opportunity Partners LLC. The company acquired and converted the old Office Max and Mars Music building to create a two-level 700-unit storage facility. All units are climate-controlled, and the facility features drive-thru covered loading, on-site managers, video surveillance, conference room facilities and free WIFI for customer use. Penske Truck Rental is also available on-site as an added convenience.

Storage Opportunity Partners LLC and its affiliates own and operate 11 Storage Pros Self Storage facilities in southeastern Michigan and New England, under the leadership of co-founders David Levenfeld and Ian Burnstein. The Southfield property represents the company’s first development project, which Levenfeld terms a “sure-fire winner” due to its “incomparable location”.
