

Gil Squire – a Fellowship Square Phoenix resident since 2005

I had the good fortune of being acquainted with two of the residents of Fellowship Square who were exuberant in their praise of the accommodations, security and sustenance. When I was widowed at the cusp of 90, the only logical and sensible thing to do was to emigrate to Fellowship Square where my children and grandchildren would be assured that I would be cared for with all the amenities and security of a well kept resort. Allow me to enumerate some of the discoveries I have made in the past two years.

- Five star dining room with very qualified Chef and staff who are eager to please.
- A well lighted, well equipped fitness center
- Monday through Friday 9am exercise class designed for people of advancing years to promote dexterity and flexibility.
- Emergency call system consisting of a call button worn by every resident.
- Beauty and Barber Salon for hair and nails
- A heated swimming pool with a Jacuzzi and changing room with lockers
- Two wonderful Activity directors that work hard to provide entertainment and outings using safe modern buses driven by caring helpful drivers.
- Efficiency Kitchens with lots of storage
- Housekeeping twice each month by trained/supervised personnel
- Cox cable
- Billiards

And that is not all of it. It only gets better and better.
