Making a  
Difference  
in Pet Care!

# Our Story

It all started with an idea. Veterinarian, Steve Weinrauch, & Licensed Veterinary Technician, Michelle St. Mary, thought there had to be a better way to make a difference in pet care...

### *The dilemma:*

- Independent animal hospitals often cannot provide the flexibility, or appropriate pricing structures that meet the needs of their surrounding community
- Large corporate chains may lack a personal touch, local community knowledge and often dictate medical practices/protocols

### *The solution:*

- A locally owned & operated, purpose built/state-of-the-art, network of veterinary hospitals offering a personal touch
- Convenient destination point locations
- Team members with a shared vision
- Working directly with the local community
- Giving back through our in-house non-profit: [www.2ndchancerescue.org](http://www.2ndchancerescue.org)

*The result:* Making a difference in pet care

# Services

- Preventative care
- Pocket pet care
- Emergency care
- Orthopedic surgery
- Laser surgery
- In-house lab/pharmacy
- Acupuncture
- Grooming
- Digital x-ray
- Digital dental x-ray
