Presentation focuses on medications for those living with age-related dementia

APPLETON, Wis. — Individuals living with Alzheimer's disease or other age-related dementia often take multiple medications. Understanding those medications — and what they do — can be a challenge. Brenda Krueger, R.Ph., a pharmacist from Morton LTC Pharmacy, will sort through the issues and answer questions during a Sept. 23 presentation at Touchmark on West Prospect.

Krueger will discuss common medications used for dementia and the effects and changes a caregiver can expect. The presentation begins at 6:30 p.m.

There is no charge for the presentation, and seating is limited. RSVPs are required; please call 920-832-9100 by Sept. 21. Touchmark is located at 2601 Touchmark Drive.

About Touchmark

Located on 40 acres directly across from the Butte des Morts Country Club, Touchmark is home to more than 150 people. The full-service retirement community offers a wide range of homes and lifestyle options.
