## **Beginning computer class for seniors offered at Touchmark**

(Helena, Mont.) — What's a mouse? Where do I go to find Facebook? How can I send an email? Could you use some assistance in navigating the differences between Windows 7, 8 and 10? Get the answers to these and many other questions at the "Introduction to Window's Beginner Class" at Touchmark on Saddle Drive Wednesday, April 13 at 2 p.m.

Zack Rogers and Dan Volpe from AMC PC Services will help participants learn how to get online, check email, use Facebook and stay safe on the Internet. Attendees may bring their laptops or iPads for this hands-on, informative class.

"Computers can open up a whole new world for seniors, but for many, computers and technology are like a foreign language, and understanding how to use them can be daunting," explains Touchmark Life Enrichment/Wellness Director Nanette Whitman-Holmes. "This class is intended to take the mystery out of computer use and help people navigate their computer and the Internet with ease."

Wednesday, April 13 2 p.m. at Touchmark on Saddle Drive, 915 Saddle Drive.
