Celebrate longest day and start of summer at Touchmark

EDMOND, Okla. — Touchmark at Coffee Creek will bring in the longest day of the year — the summer solstice — in style by opening its Parkview residential neighborhood to the community for a party.

June 20 is the first day of summer, and the summer solstice begins officially at 5:34 p.m. in Oklahoma; that is when the Sun reaches its northernmost point of the equator.

Although daylight lasts 14 hours and 30 minutes, Touchmark's party will be 4:30-6:30 p.m. with lots of fun, including a barbecue. To reserve a spot, please RSVP by June 17 to 405-340-1975. Touchmark is located at 2801 Shortgrass Road.

For people living with Alzheimer's disease and other dementia and their caregivers, every day can seem like the longest day. To remember those living with Alzheimer's disease and other dementia, the Alzheimer's Association designates the summer solstice for its Longest Day event, which raises funds and awareness about the devastating disease.

In addition to the barbecue, residents and staff at Touchmark are marking the summer solstice earlier in the day with a variety of activities including a dog walk around the community, yard games, face painting and an ice-cream sundae bar.

Touchmark is part of the Coffee Creek 638-acre planned residential development, which includes a golf course, recreational centers and walking and biking trails for Coffee Creek homeowners. A full-service retirement community, Touchmark offers a wide range of homes and lifestyle options. For more information, visit TouchmarkEdmond.com.
