AWARENESS FOR ALZHEIMERS

There are currently more than 5 million people in the United States living with Alzheimer's, which is the sixth-leading cause of death in the United States. With this in mind, the residents and staff members of Tequesta Terrace Assisted Living (400 N U.S. 1) helped the Alzheimer's Association kick-off its recent week-long "Paint the Town Purple" event by raising awareness and showing support for those living with Alzheimer's.

As part of this effort, Tequesta Terrace Assisted Living hosted "A Purple Carpet Event" for the public. The community was even festively decorated in purple to match the theme of the event.

The occasion offered attendees the opportunity to learn more about Alzheimer's and what they can do to help raise awareness, while they had fun and relaxed while mingling over light refreshments. Additionally there was a raffle with goodies donated by local businesses, with all proceeds from the raffle benefitting the Alzheimer's Association. The community adorned its buildings with purple colored decorations and gave its fountains a makeover by changing the lights to purple. Their goal was to inspire the public to participate in the movement.

The Tequesta Village mayor, Abby Brennan, and the Tequesta Village Town Council recently made a proclamation to commemorate the "Paint the Town Purple" events. Mayor Brennan also attended the event to show her support.

"We're excited to paint the town purple and raise awareness for those living with Alzheimer's and their caregivers," said Lisa Gallagher, executive director of Tequesta Terrace Assisted Living. "It's important that we engage the public in the mission behind this important cause and why it is significant to our community. At Tequesta Terrace Assisted Living, we work with Alzheimer's and memory care residents every day, and we understand the impact events like this have. As we go purple, we do so in honor of our residents and their families living with Alzheimer's. We encourage the public to go purple for a day and share how Alzheimer's has impacted their life. Through efforts like this, we can come together to help find a cure."

Tequesta Terrace Assisted Living's "A Purple Carpet Event" started the week-long movement coordinated by the Alzheimer's Association that ran through Friday, July 1 to raise Alzheimer's Awareness.
