

Angela Stewart-Greenleaf

Health Services Director

Angela joined Touchmark in spring 2012 as the Life Enrichment/Wellness Director. In 2013, she added Memory Care Administrator to her responsibilities before assuming her current position in 2015. As Health Services Director, Angela oversees all health services within the community.

While growing up, she lived in Washington, Idaho, Montana, Colorado, Kansas, Virginia, and Oregon. Her frequent family moves encouraged adventure and fostered her desire to meet and work with fascinating people.

She genuinely enjoys getting to know residents, learning about their lives, and motivating them toward new opportunities and positive moments.

Her personal growth and leadership reflect varied experiences including working with people living with Alzheimer's disease and other dementia illnesses, being a collegiate coach, university admissions counselor, activity director, and ski instructor. She enjoys traveling, and she has visited Brazil, Mexico, China, and Europe.

In 2013, Angela became a Certified Best Friends™ Master Trainer and was recertified in 2015. In 2014, she completed a comprehensive series of eight courses and requisite testing and earned the designation of Certified Cognitive Stimulation Instructor.

Away from work, she spends time with family and friends and especially relishes a good meal of Mexican food. She also attends church, plays beach volleyball, bikes, skis, hikes, camps, and works with a variety of art media. Angela holds a master's in adult education with a gerontology emphasis from the University of Wyoming. Her undergraduate work was at Sterling College, where she earned a Bachelor of Science in Education and Bachelor of Arts in Art and Design and learned about the essence of servant leadership—a focus she integrates into her personal and professional life.

Angela brings a variety of talents and skills to Touchmark and appreciates the rich experiences and depth of understanding that come from working with people of all ages.
